## Summary

Meticulous web developer with over 2 years of front end experience and passion for responsive website design and a firm believer in the mobile-first approach. Working as a Front-end Developer currently implementing new UI conversion changes to our state of the art compliance software.

## #Professional Experience

### **B2Gnow / Front-End/Software Developer / Phoenix, AZ 85003**

August 2019 – Current: Phoenix, Arizona

- ↳ Hands - on experience in Agile Scrum and Test Driven Development (TDD) using Jira.
- ↳ Researched and implemented appropriate changes to make our web-app ADA compliant.
- ↳ Learned other programming languages such as C# and .Net to help participate in the development of features.
- ↳ Maintained our events website that produces approximately \$100k in event sales each year.
- ↳ Coordinated with the marketing team to help run social media ad campaigns.
- ↳ Implemented standardized UI conversion changes resulting in an up to date look and feel to the web-app.
- ↳ Peer-reviewed any Front-end related code before it is sent to production.
- ↳ Participated in team events and activities to build team cohesion and communication between each developer.
- ↳ Worked closely the Configuration Team and revised/oversaw their front-end development.

### **Trilogy Education / Teaching Assistant / Instructor**

March 2018 – August 2019: Tucson, Arizona

- ↳ Guide students by setting goals aligned with their ability. Assist with their weekly learning goals and assignments.
- ↳ Review fundamental concepts and methodologies in Javascript, HTML5, CSS3, Rest APIs, and object-oriented programming.
- ↳ Mentor students on how to approach their projects and any helped them through any roadblocks the encountered.
- ↳ Held tutor sessions before class to help students that were having any problems learning any of the material.

### **E-com Progression/ Web Developer**

January 2017 – March 2018 : Tucson, Arizona | Remote

- ↳ Interfaced with and developed a small to medium scale applications for my clients.
- ↳ API-based backend written in Javascript with Node and Express, using MongoDB.
- ↳ Custom SCSS styling written with BEM-IT naming conventions.
- ↳ Executed React & Redux front-end in ES6, with Babel, Gulp, Webpack, and Node.
- ↳ Coordinated with their marketing team to help run social media ad campaigns and pin-pointed customer targeting using FaceBook, Google and Instagram Ads.

### **United States Army / 92G**

Jan 2009 - June 2016 : Fort Bragg, NC |

- ↳ Completed 2 successful tours in Afghanistan where I learned how to co-exist with people from different backgrounds.
- ↳ Learned how to cooperate with others and ultimately work as a team to get the job done.
